

EXCLUSIVE CO-OWNERSHIP OF YOUR DREAM PROPERTY

Is your recreational dream property a waterfront paradise in the Pacific Northwest, complete with private dock and guesthouse? Or is your dream property a prestigious mountain home at your favourite ski resort with access to the world's finest skiing, golfing, hiking and cycling? Or maybe your dream is to own a ranch in Wyoming's vast interior where you can ride horseback through God's country or fish for trout in your own private lake. Maybe you have more than one dream...

Wayne Wilkins, Working Editor

All these dreams are possible and all these properties are available through excellent realtors from across the country. But these properties require more than just the capital necessary to purchase and maintain them. They require a more precious commodity than money. They require time.... to use and enjoy them.

There are a growing number of people who have experienced financial success in their professional lives and in their business ventures who vigorously maintain their goals of, one day, owning those fantastic recreational properties they have always dreamed of. Now that their hard work and commitment has paid off, it is their chance to pursue those dreams.

Unfortunately, because of the time constraints of their busy lives and their inability to utilize the property as much as they would like, they let the opportunity pass them by. They decide that the real estate investment in their dream property is not justified. As a result, they miss out on all the fantastic lifestyle benefits that these properties would have provided to themselves, their families, and their friends.

Now there is a solution....

"Exclusive Co-ownership". With the help of Ownermatch International you can invest in your dream property in conjunction with a like-minded co-owner who treasures your dreams as much as

you do. Ownermatch International has developed a complete strategy to find you the perfect partner to "co-own" your dream property with.

Both parties win. They share capital costs, operating costs and expenses. They enter into a comprehensive co-ownership agreement that protects their interests and allows them to enjoy the property according to a mutually-beneficial "schedule of use". Both co-owners experience the lifestyle benefits they have dreamed of while reducing all cost of ownership by half.
